

DAY IN THE LIFE

• OF AN APPRENTICE •

8.45am

Your day begins - you live on-site with other instructors and apprentices, so everyone has breakfast together then you make the quick walk to a morning meeting where everyone is set up with their tasks and sessions for the day.

09-15am - 10:45am

It's the first session and you are shadowing high ropes with an Outdoor Learning Instructor. Throughout the session, you are learning techniques needed as well as how to engage a group of young people

11:00am - 12:30pm

Session one is done, session two is up next! You've completed your archery training and qualifications and today is your third session being the lead instructor to a group of year 6 students who are excited to hit the bullseye!

Lunch

Time to fuel up! Today is BBQ chicken wraps - time to sit down with the rest of the Avon Tyrrell team and catch up on everyone's day.

1:45pm - 3:15pm

The day is flying and it's already third session! During the third session, you and the other apprentices, have some time in the training room going over safety procedures and any NVQ assessment work that you need to do.

3:30pm - 5:00pm

It's time for the final day session and you are doing some training on lake activities which includes safe capsizing and how to do a water rescue in a canoe.

Pack down & Evening Activities

All of the day sessions are done, and activity areas have been packed down! You're on campfire tonight shadowing an instructor as you are working towards your sign-off. The sun is shining and it's been another great day!
